

MAKES THEM GROW

MCSubstradd® comprises a large range of supplements for the growth of mushrooms, specially made of high quality proteins with the nutritional value perfectly matching the requirements of the mushrooms.

Our supplements are made of high quality raw materials, carefully selected and strictly controlled.

The production process takes place in our dedicated production unit, with the most advanced equipment.

Each of our supplements is tuned on the most current compost qualities.

For your specific compost we can also produce a custom-made supplement for optimizing your results.

Product Specification

MCSubstradd® Extra

Protein	min	40%
Moisture	max	12%
Formaldelhyde		6000 ppm

Composition
Soya, Minerals, Formaldehyde

Instructions for **MCSubstradd® Extra**

Add the supplement to Phase 2 or Phase 3 compost. Use 1,0% to 1,5% of the amount of compost by weight or 3% to 5% of the dry matter of the compost.

For a good result apply evenly and mix the supplement thoroughly into the compost. A small but good manageable temperature increase can be expected.
